Education

KL University

Aug. 2022 – April 2026

Bachelor of Technology in Computer Science (Honors), CGPA: 8.8

Vijayawada, AP

- **Core Computer Science:** Data Structures and Algorithms, Operating Systems, Database Management Systems, Computer Networks
- **Advanced Topics:** Machine Learning, Cloud Computing, Big Data Analytics
- **Programming:** Object-Oriented Programming, C#, ASP.net, Web Development with MERN Stack

Projects

Ecommerce Microservices Platform (React.js, Spring Boot, MySQL, MongoDB)

- Architected a scalable, event-driven microservices ecosystem with Spring Boot for better modularity and coordination.
- Integrated Kafka for asynchronous communication, enhancing responsiveness and fault resilience.

Advanced Customer Segmentation Using Azure Synapse (Azure Data Lake, Apache Spark, Power BI, SQL)

- Implemented customer segmentation by ingesting structured and semi-structured data into Azure Data Lake, processing it with SQL and Spark in Azure Synapse, and applying clustering models.
- Visualized customer clusters and purchasing behaviour in Power BI to support data-driven marketing strategies.

Student Management System (ASP.NET MVC, C#)

- Developed a student management web application supporting registration, login, batch assignments, and course management, showcasing the fundamentals of ASP.NET MVC architecture and CRUD operations.

Customer Sentiment Analysis (Python, Pandas, Scikit-learn, Matplotlib, Flask)

- Facilitated cross-functional collaboration between business development and software development teams, ensuring alignment and improving project outcomes.

Achievements and Recognitions

Contributed to HR Initiatives at Georgia Tech

2023

GAO Tech

- Developed and implemented structured onboarding processes, including mentorship programs and regular check-ins, to improve employee retention and accelerate team productivity.

Lead of Academic and Skill Initiatives

2023 – Present

Student Governing Body

KL University

- Led the planning, execution, and evaluation of student hackathons, fostering innovation and creativity within the university.
- Collaborated with faculty to create and implement flexible class schedules that better accommodate student learning needs and extracurricular activities.

AWS Data Engineering Internship

KL University

- Completed hands-on projects involving real-time data pipelines, achieving 98% task completion accuracy.

Technical Skills

Languages: Java, C#, SQL, JavaScript

Frameworks: React, Next.js, .NET Framework, Spring Boot

Databases: Oracle, MongoDB, MySQL

Tools: Git, Tableau, Azure, AWS, Bitrix24, VS code

Certifications

C# Basics for Absolute Beginners in C# and .NET – Coursera

Data Visualization with Tableau – Coursera

AWS Certified Cloud Practitioner – Amazon Web Services
